THE MEMBERSHIP NEWSLETTER OF THE ITAWAMBA COUNTY DEVELOPMENT COUNCIL

The New ICDC Website is Live

A crowd braved the cold weather and came out for a relaxed and fun-filled event to reveal the new ICDC Website. ICDC Executive Director Vaunita Martin and Sarah Pittman, MSU Ext. Office Technology Project Manager, presented the website. The new website is modern, easy to navigate, and attractive. This site promises to provide useful information to tourists, businesses, and locals. Prominent features include ***Made in Itawamba***, which promotes products manufactured in Itawamba County, ***Visit Itawamba***, created to attract tourists to shops, eateries, and attractions, and ***Economic Development***, which provides vital information and statistics for starting or locating a business in Itawamba County. The presenters offered a special thanks to Bob Franks of the Itawamba Historical Society, who provided pictures featured throughout the site. "It's been a group effort, filled with long nights, weekends, and holidays to make the site a reality. Most websites take at least six months to develop, but we were determined to provide a quality product in a short time frame to continue recruitment efforts for Itawamba County. We are putting our best foot forward", says Vaunita Martin. Visit www.itawambams.com today!
